Core strength

An ISO 9001:2015 & OHSAS 45001:2018 Certified Company

Third Party Logistics: 3PL Services

STARLINK has the size, scale and experience to help with any warehousing and distribution challenge. We are the leader in Logistics, managing 1.05 million square feet of distribution warehouse space across INDIA operations. But we don't equate bigger with better. In fact, our growth is best measured by the fact that our warehousing and distribution customers stay with us a very long time. They're loyal because we continue to add value in new ways, year after year.

Distribution Center Operations - Our full range of services includes Telecom and Retail sector's facility design, start-up/transition and day-to-day management in both multiparty shared, customer owned or dedicated warehouse setup.

Distribution Network Optimization- Services backed by advanced data analysis and modeling mechanism determine the right multi modal mix for your distribution of goods to point of consumption with far reach into Tier 3 and Tier 4 locations also.

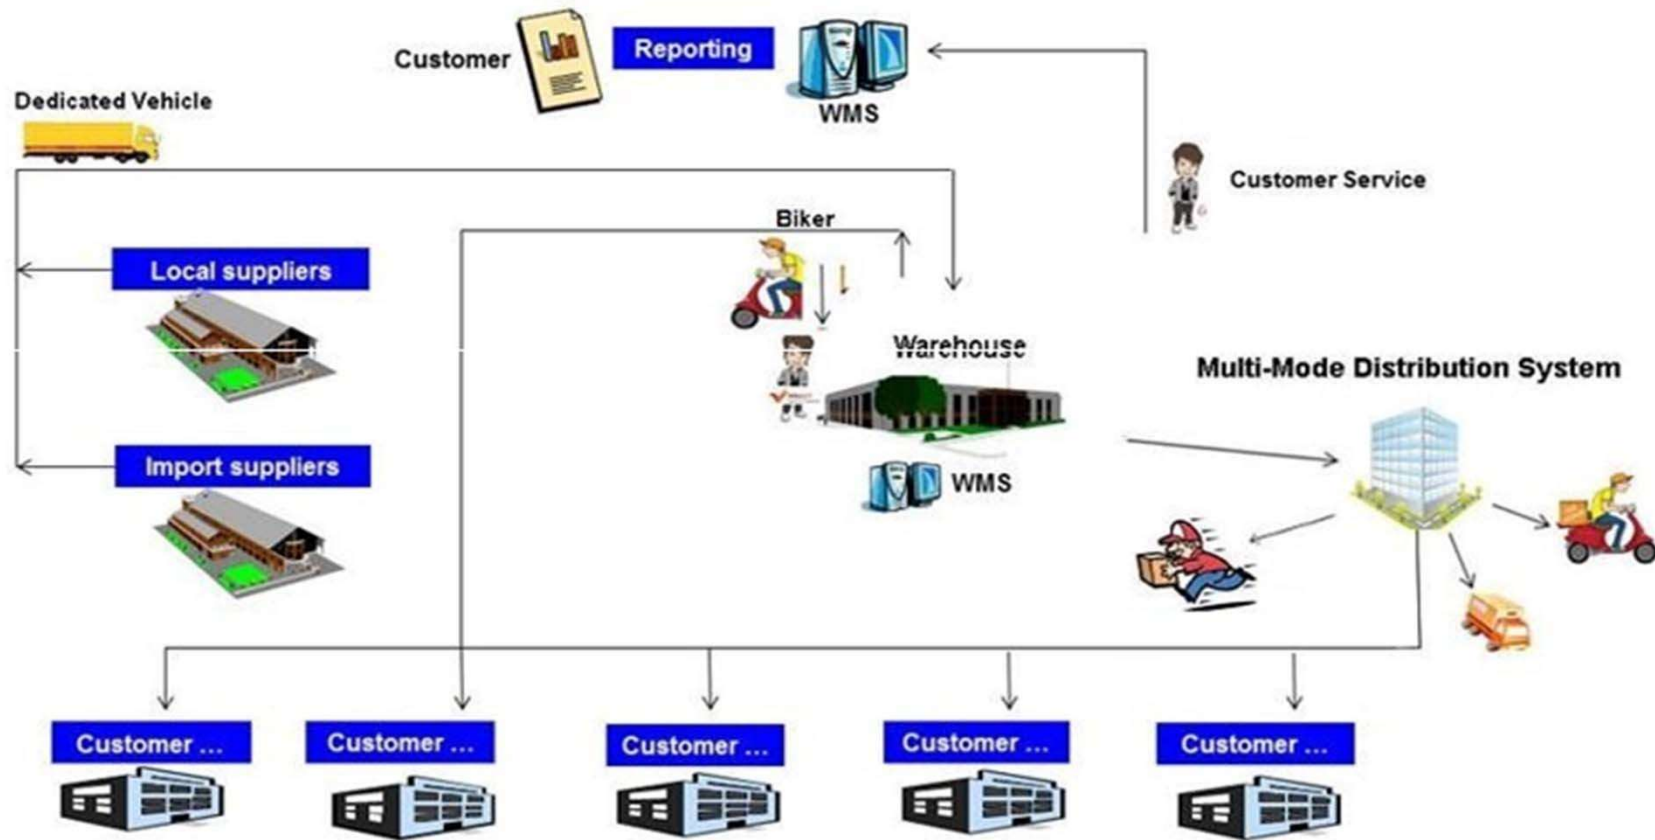

Order Fulfillment- Capabilities of high-volume, pick and pack operations, including e-commerce fulfillment.

Reverse Logistics- Management of the reverse flow of goods for warranty or repair return, end of life, customer feedback information and cash for goods or freight, including value-added services such as test, repair and refurbishment; product recall management; and recycling , repackaging services.
